SUMMARY OF THE REASONS FOR DECISION:

The *Untitled* photograph is classified as:

Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years.

The photograph presents an image of a woman's thighs and genitals. The image is close focus and the genitals are the central focus, with the image being cropped to increase that effect. While the publication's direct and deliberate focus on the woman's genitals dehumanises the woman, this is not particularly strong. Because of the sexually explicit nature of the image the availability of the publication is considered to be injurious to the public good unless restricted to an adult audience.
